WEDDING PRICING | 2021

CENTRAL KENTUCKY AND BEYOND

# MEET THE PHOTOGRAPHER

Hello! My name is Kaylin and I've been shooting weddings as a lead since 2016, after 5 years second shooting, assisting and learning from my talented friendtogs in and around Leitchfield, KY. My style has been described as romantic and journalistic by past clients and "like something in a magazine!" by my sweet momma. I recently moved back to my old Kentucky hometown after spending 3 beautiful, sunny years in Tallahassee, Florida. I spend my days watching old horror movies, making art, and poking around the farm with my husband Josh, our cat Coop, and our lil' flock of chickens. But, my all time favorite thing to do is meet loving couples and document the best day of their lives. If that sounds like something you'd be into - shoot me an email and set up a consultation! We'll get a bite to eat and talk about your story.

*The complaint I hear most often from couples after their wedding day is that they were so busy and overwhelmed, they didn't get to fully experience the event they spent months (or years) planning. The detail-oriented, journalistic approach to wedding photography that I provide ensures that every time you look through the photographs from your wedding day you'll be transported back to both the major events and personal details alike.*

*Beyond capturing stunning images, my number one goal is to make sure your day is as enjoyable as possible. With somewhere around 40 weddings captured since 2011, I can navigate a standard wedding day blindfolded and I'm a born problem solver. In the past I've wrapped bouquets, pinned boutonnieres, commanded crowds, stitched dress straps, and danced the night away at almost all of my weddings. This experience goes into every wedding I shoot and while the official packages outlined in this packet will cover most couples' wedding coverage needs, I am always open to discussing a bespoke photographic experience that caters to your specific tastes and needs.*

*All wedding options include edited images in a beautiful, simple online gallery ready to instantly download to your personal devices. However, I am always ready and willing to walk you through a variety of physical print options. I want my clients to love their prints as much as I do. Every product offered is printed through a professional, US-based photo lab that caters specifically to professional photographers. Additional products can be ordered with any package and I am always more than happy to go over some of my favorites with you.*

# The Deluxe | 3200 up to 9 Hours

Two Professional Photographers

One 10x10, 20 page album or One 16x20 Wall Art print (framed print or canvas)

Social Sharing Highlight Gallery

High Resolution Digital Download Gallery with Print Release

We Did sessions can be in plain clothes or wedding attire.

WITH ALL THAT  
I AM

AND ALL  
THAT I HAVE

# FAQ

Q) Do you accept inspiration boards or image checklists?

A) Absolutely! I love pinterest and use it all the time! However, I cannot guarantee that I'll be able to replicate every shot requested and my ability to deliver requested images is completely dependent on the wedding day timeline, the setting for photos, and a million other unforeseen hiccups and issues that may affect the shot list. I always try to meet with clients prior to the wedding to make sure we're on the same page concerning the most important shots and to make sure we both know the timeline is airtight and ready to rock.

Q) Do you have lighting equipment? Are you comfortable shooting in very dark venues?

A) I (and my second shooters) use on and off camera flashes on professional DSLR bodies with excellent low light performance, as well as professional grade post processing programs that give us additional flexibility to beautifully light your ceremony or reception. Some churches do not allow artificial lighting during the ceremony, however, so we must respect house rules in that situation. Also- if your vision is golden glowy goodness but you're thinking about an 8 pm December wedding, we may need to chat a bit more about lighting accommodations.

Q) Do you include all the photos you take in the gallery?

A) I do not, but I promise to only cut images that are repetitive, blurry, under or over exposed, or feature one of you halfway blinking while chowing down on some tasty treats at your reception. A full day of wedding coverage will usually result in somewhere between 400 and 600 images, depending on the events and specifics of your day. That's a ton of photos and so far we haven't had a client who felt like something was missing from their day after receiving their images.

Q) Can we have the unedited or RAW files?

A) RAW files are just that: raw. They have to be processed to reach their full potential and then exported in order to be printed or posted online. Part of the service I offer is the toning, processing, and finishing of your images. It's not unusual to spend 20-30 hours culling, editing, and exporting a wedding in addition to the time spent shooting the event. If you have a question or concern about the editing of your images, you can absolutely go over that with me in your pre-wedding consultation and if you have any issues scaling an image for a certain print size, I'm more than happy to work with you on a file-to-file basis.

Q) How long before we receive our wedding images and products?

A) Weddings are edited and galleries delivered within 8 weeks of the wedding date. Products are usually delivered within 4 weeks of ordering. Specialty items like albums may take longer, as we offer two layout revisions before ordering the finalized book to ensure client satisfaction. Clients will receive text or email updates during the ordering process.
